It is the mission of the Greatest Love Cotillion program to offer young women opportunities to enhance their cultural awareness, strengthen social skills, foster leadership capabilities, encourage global community involvement, and promote high scholastic goals.

The members of Theta Iota Omega Chapter seek to motivate each Cotillion participant's pursuit of excellence, and mentor them for future social, educational and community service endeavors. Our signature program also serves as a means of awarding financial scholarships to young women for their academic achievement and volunteerism.
